

# Engineering Journal

American Institute of Steel Construction, Inc.

- 63**    **Assessment of the Fire Resistance Test with Respect to Beams in Real Structures**  
Susan Lamont, Barbara Lane, Asif Usmani and Dougal Drysdale
- 77**    **Experimental Investigation of Reduced Beam Section Connections by Use of Web Openings**  
Jong Won Park and In Kyu Hwang
- 89**    **Strength of Joints that Combine Bolts and Welds**  
Geoffrey L. Kulak and Gilbert Y. Grondin
- 99**    **Static Pullout Strength of Power Actuated Fasteners in Steel: State-of-the-Art Review**  
Hermann Beck, Michael Engelhardt and Neil Glaser
- 111**    **Achieving a Stable Inelastic Seismic Response for Multi-Story Centrally Braced Steel Frames**  
Robert Tremblay
- 131**    **Suggested Reading from Other Publishers**
