

Geotechnical Testing Journal

Contents:

-
- 813 **A Modification to Radial Strain Calculation in Rock Testing**
Hossein Masoumi, Serkan Saydam, and Paul C. Hagan
-
- 823 **A New Triaxial Testing System for Unsaturated Soil Characterization**
Lin Li and Xiong Zhang
-
- 840 **Assessment of Molding Moisture and Suction on Resilient Modulus of Lime Stabilized Clayey Subgrade Soils**
Md Tahmidur Rahman and Rafiqul A. Tarefder
-
- 851 **Comparison of Multiple Sensor Deflection Data From Lightweight and Falling Weight Deflectometer Tests on Layered Soil**
Jacob G. Grasmick, Michael A. Mooney, Christopher T. Senseney, Roger W. Surdahl, and Michael Voth
-
- 864 **Design and Evaluation of a Thermo-TDR Probe for Geothermal Applications**
X. Yu, N. Zhang, A. Pradhan, B. Thapa, and S. Tjuatja
-
- 878 **Development of a Miniature Cone Penetrometer for Calibration Chamber Testing**
Sepideh Damavandi-Monfared and Abouzar Sadrekarimi
-
- 893 **Instrumentation System for Ground Vibration Analysis During Sheet Pile Driving**
Fanny Deckner, Kenneth Viking, Claire Guillemet, and Staffan Hintze
-
- 906 **Laboratory Model Test on Contact Erosion of Dispersive Soil Beneath Pavement Layers**
Piratheepan Jegatheesan, Premkumar Sothilingam, Arul Arulrajah, M. M. Disfani, and Pathmanathan Rajeev
-
- 915 **Laboratory Test for Evaluating Crack Filling During Internal Erosion in Zoned Dams**
Ricardo Neves Correia dos Santos, Laura Maria Mello Saraiva Caldeira, and Emanuel Maranhã das Neves
-
- 929 **Low-Strength Similar Materials for Backfill Mining: Insight from Experiments on Components and Influence Mechanism**
Shaojie Chen, Hailong Wang, Junwen Zhang, Huilin Xing, and Huaiyuan Wang
-
- 936 **Non-Contact Sensing System to Measure Specimen Volume During Shrinkage Test**
Sumit Jain, Y. H. Wang, and Delwyn G. Fredlund
-
- 950 **Permeability Test Results With Packed Spheres and Non-Plastic Soils**
Robert P. Chapuis, Simon Weber, and François Duhaime

Volume 38, Number 6
November 2015
Coden: GTJODJ

(Contents continued on back cover)
