

# International Journal of

# MODELLING & SIMULATION

VOLUME 30, Number 4, 2010

- |  |  |     |
|--|--|-----|
| • Component-based Modelling of Multi-Physics Systems   | <i>Andrei Smirnov, Andrew Burt,<br/>Hanzhou Zhang, Ismail Celik</i>                      | 409 |
| • Sensor Network Design for Improving Estimation Quality   | <i>Vincent Sircoulomb, Ghaleb Hoblos,<br/>Houcine Chafouk, José Ragot</i>                | 416 |
| • Flood Characteristics of Upper Meghna River Basin,<br>Bangladesh   | <i>Md. Javed A.N. Bhuiyan,<br/>Flemming Jakobsen, Abu S. Khan,<br/>Md. Salim Bhuiyan</i> | 428 |
| • Delta Operator Modelling and Control by Optimal Frequency<br>Matching using GA                                   | <i>Narayan C. Sarcar, Prasanta Sarkar,<br/>Manabendra Bhuiyan</i>                        | 434 |
| • Potential of Gas Sensor Array Based Principal Component<br>Analysis Hybrid for <i>Escherichia Coli</i> Detection | <i>Subadra Murugan,<br/>Marimuthu N. Sankaralingam</i>                                   | 445 |
| • An Alternative to the Bessel K Form Distribution   | <i>Pavel A. Khazron, Ivan W. Selesnick</i>   | 452 |
| • Model Comparisons of a Partially Strengthened Flexible Beam  | <i>Mehrdad R. Kermani</i>  | 462 |
| • Chaos and Bifurcation of Voltage-Mode-Controlled Buck DC-<br>DC Converter with Multi Control Parameters          | <i>Ahmad M. Harb, Souhail M. Harb,<br/>Issa E. Batarseh</i>                              | 472 |
| • Time to Failure for a "K Parallel R-Out-of-N" System   | <i>Erik E. Kostandyan, Leonard R. Lamberson,<br/>Azim Houshyar</i>                       | 479 |

(Continued on back cover)

---

• Tune-Up Friendly Fast Simulated Annealer for VLSI Analog Module Placement	<i>Lihong Zhang, Yingtao Jiang</i>	483
• Simulation of Potential and Electric Field Profiles for Transmission Line Insulators	<i>Basappa S. Reddy, Udaya Kumar</i>	490
• Rotation Compensation Iris Recognition System using Multi-scale Directional Filter Bank and 2DPCA	<i>Chellakkon Helen Sulochana, Srinivasan Selvan</i>	499
• A Neural Networks Algorithm for the Minimum Colouring Problem using FPGAs	<i>Haidar Harmanani, Jean Hannouche, Nancy Khoury</i>	506
