

# mechanical engineering

October 2004 Volume 126/No. 10

CEPOLA

**A potent juggernaut hits a snag on visas, but more claims are coming.**  
page 44

## features

**32** **FREEDOM OF CHOICE** The fuel cell vehicle has a long way to go. Maybe those part electric-powered, part gasoline-burning cars will help clear the way.

By Paul Sharke

**36** **VIRTUALLY EDISON** Analysis software makes it easy to experiment early and often. It doesn't eliminate the hard work, but it can get more out of less.

By Jean Thilmerly

**38** **FROM SEA TO SINK** With supplies of water under stress, the prospect of rendering saltwater drinkable is growing more appealing and more affordable.

By Gayle Ehrenman

**44** **DOWN BUT NOT OUT** Checked in the courts, Jerome Lemelson's patent machine is still churning out new claims.

By R.P. Siegel

**48** **SUPERCOOL PROTECTOR** A runaway-current limiter passes a test.

By Harry Hutchinson

**80** **INPUT/OUTPUT** Sound health.

By John DeGaspari
